## The Hope of the Resurrection

1 Cor. 15:35-58

**Focus:** The hope of the bodily resurrection (the death of death 15:26) should form the way we live...steadfast, immovable, and abounding in the work of the Lord.

- *Two options....read the passage out loud or better yet read the entire chapter together to remind you of the position and power of the gospel.*
- *35-38 Why is the question of how it works, foolish? What does the illustration of the sowing of seed teach us about the bodily resurrection? What can we learn about continuity and transformation of our resurrected bodies from the resurrected Jesus in Luke 24:36-49 and John 20: 19-23?*
- *39-41 What does the illustration of different types of physicality in nature tell us about the “what” and “who” of the resurrection?*
- *42-44 What is our hope? What does Paul affirm is our sure future?*
- *45-55 What does Paul understand about the gospel that many of us miss in our day to day life? How does the representative nature of the two Adams bring light to God’s redemptive and restorative plan? What hope does this bring to your life? How should we apply such hope? (Phil 3:20-21)*
- *56-57 In the midst of Paul’s worship he is reminded of this...as you have read this passage and truth where has your mind and heart gone? What beautiful truths do you see in Paul’s reflection?*
- *58 How should the gospel and the truth of its culmination in a bodily resurrection effect the way you live?*
