## Why The 10 Commandments Matter

Deut. 5.1-21

**Focus:** *To exalt the 10 commandments as essential to the life of the believer.*

How have you seen our culture grow more ignorant and/or hostile to the 10 commandments in your lifetime?

How would you do with a quiz to recite the 10 commandments? Why do you think that they have fallen into some neglect in the lives of believers? How would you respond to someone who says that the 10 commandments are irrelevant to believers because we are no longer under the law? (cf. Gal. 5.18)

Read 5.1-21. What do these commands reveal about who God is?

In what ways are these commands a blessing to those who keep them?

What questions do you have about what the commands may mean or how we should apply them? (don't feel pressured to answer all these now! We will be exploring these commands in the weeks ahead in much more detail.)

Which command would be at the top of your list to grow in obedience to? (you may want to use this during your accountability time)
