When are Rights Wrong?

1 Cor. 9.1-18

- Read the passage. How would you describe Paul's tone in this section? Why is he so ticked at them? Why do you think this issue means so much to him?
- After working so hard to defend his rights as an apostle, why does Paul not use them? What is at stake here?
- How would you define "the gospel"? How do you explain Paul's deep devotion to it? Do you share that? what inclines you towards that and what keeps you from it?
- In what way could our rights today hinder the gospel? Is there any right that you are aware of that you need to relinquish so as to protect the gospel? (think about within families, at work, with neighbors, etc...)
